

FURKA ROOF RACK SILVER

Art. no: 701001

Furka is a clamp-mounted roof rack system designed to be easily fitted on the door frames. The two aluminium roof bars are pre-assembled. Clamps are not included and must be purchased separately as two additional kits (1 front + 1 rear). At first installation, the position of the feet on the bars needs to be adjusted to suit the shape of the car's roof. After this initial setting, the tool-free lever system makes Furka as the quickest and easiest roof racks system. - The profile of the bars optimises aerodynamic drag and reduces noise. - The T-screws of many accessories (bicycle rack, ski rack, roof box, ...) can be slide in C-slot of the upper side of the bars. - The locks on the covers of each foot provide superior security.
