XPLORE READY FIT 202 ROOF RACK

Art. no: 748202

The Xplore Ready Fit roof bars come pre-assembled and ready to install. They can be mounted in seconds thanks to their patented lever-clamping system, requiring no tools. Made from anodized aluminium with a low-profile design, they fit perfectly onto vehicles equipped with longitudinal roof rails. The integrated T-slot allows easy mounting of roof boxes, ski racks or bike carriers, while the lockable feet ensure a secure attachment. Their aerodynamic shape reduces wind resistance for quieter, more comfortable journeys. ISO 11154-certified, these premium roof bars comply with European safety standards.
